

# VPA 032

Operating Fluid

VACUUM SOLUTIONS

## High performance

Operating fluid based on Perfluoropolyether (PFPE), outstanding thermal stability, low vapor pressure for high vacuum applications, excellent compatibility with fuel stacks

## Inert

Chemically inert, for gas mixtures with an oxygen content of more than 21% or corrosive chemicals

## Advanced corrosion protection

Advanced anti-rust properties for high resistance to water ingress

VACUUM SOLUTIONS

| VPA 032                 |                           |
|-------------------------|---------------------------|
| Base lubricant          | Perfluoropolyether (PFPE) |
| Kin. viscosity at 40°C  | 39 mm <sup>2</sup> /s     |
| Kin. viscosity at 100°C | 12 mm <sup>2</sup> /s     |
| Viscosity index VI      | 310                       |
| Total acid number       | 0.03 mg KOH/g             |
| Density at 20°C         | 1.83 kg/l                 |
| Pour point              | -65 °C                    |
