

CLA 25

Cooling liquid

VACUUM SOLUTIONS

Part of the **BUSCH** GROUP

High performance

Ensures that the vacuum pump operates at peak efficiency by maintaining the ideal temperature, prevents overheating, reduces energy consumption and enhances overall system performance

Extended equipment lifespan

Protects critical components from excessive wear, corrosion, and thermal stress, less breakdowns, lower maintenance costs, and longer service life for Busch vacuum pumps

Reduced downtime

Minimizes the risk of overheating and component failure, reduced downtime, less costly repairs, improved productivity

CLA 25

Cooling liquid

VACUUM SOLUTIONS

Part of the **BUSCH** GROUP

CLA 25	
Monoethylene glycol	40 wt.%
Inhibitors and water	60 wt.%
Density at 20°C	1.060 g/ml
pH value	8.6
Kin. viscosity at 20°C	3.19 mm ² /s
Refractive index (20°C)	1.373
Freezing point	-25 °C
Boiling point	107 °C
