

# PUMA WY 0500-1250 C

Vacuum boosters

VACUUM SOLUTIONS

## Reliable

Solid lobe design, robust construction made of GGG40 material, leak-tight, reliable under varying operating conditions

## High performance

Excellent volumetric efficiency, increases the performance of a vacuum system by up to a factor of ten, specially designed for medium and high vacuum including semiconductor applications

## Flexible

Can be flanged directly on the system at any position, boosts the performance of all types of backing pumps
